

## District 211 Eligibility Requirements:

- Eligibility for competition is assessed at the end of each quarter. A student must achieve a 2.0 grade point average for the quarter, with no failing grades, to compete in the subsequent quarter.
- Students who do not meet the 2.0 grade point average will be placed on probation for the next quarter and must adhere to the following academic interventions to continue to compete in extracurricular programs:
  1. Attend tutoring at least three times per week before school, after school, on Saturdays, or during free periods. Students may receive tutoring from the teaching staff, teacher aides, or other students who have demonstrated competency in a given area of study and who are assigned to this program.
  2. Obtain the signature of all teachers to verify completion of all homework assignments for the week.
  3. Maintain passing grades and good standing status according to the I.H.S.A. weekly guidelines.
  4. Check in with the head coach weekly to submit teacher signatures and to update the coach on weekly progress.

At the end of each quarter, a report is run to identify students who have not achieved a 2.0 grade point average or who have failed a class. Students who become ineligible will be monitored through the athletic or activity department. The athletic and activity directors will inform coaches and sponsors of the students who are failing to meet standards. It is the responsibility of the coach to work with the student to develop a plan to improve the student's grades. I.H.S.A. eligibility reports are completed and reported on a weekly basis in accordance with I.H.S.A. rules.

If a student has two consecutive quarters of a grade point average below the 2.0 standard, or if the student is below a 2.0 for one quarter and subsequently fails to adhere to the academic interventions outlined above, he/she will be ineligible to compete in any extracurricular activity until the next quarter. Students who become ineligible after fourth quarter must enroll in summer school courses and continue to attend tutoring sessions the following fall.
