

## ChemWest Mini-Grants Application

Due to the generous support from Tellabs, ChemWest is able to open applications for mini-grants for Chicago area teachers. These mini-grants are to be used to strengthen classroom teaching of **Chemistry** at any grade level. They may also be used for curriculum enhancement or lab/demonstration development in **Chemistry**. The mini-grants are not intended to serve as a substitute for standard operating funds. Rather, they are auxiliary grants intended to enrich basic instructional activities. We have enough funds to give about twelve grants at no more than \$250 each. Any questions please call Karl Craddock at Fremd High School 847-755-2816 or Paul Brandt 630-637-5193. These applications will be evaluated on a rolling basis until our funds have been exhausted.

Name: \_\_\_\_\_

Email address: \_\_\_\_\_ School phone: \_\_\_\_\_

School: \_\_\_\_\_

School address: \_\_\_\_\_

\_\_\_\_\_

Brief description of the project: (Can be continued on a separate sheet of paper, but not required)

How will the project improve your effectiveness as a **chemistry** teacher?

Endorsement of an administrator: \_\_\_\_\_ Title: \_\_\_\_\_

If you are given the grant you would need to present the results/outcomes/ideas/demos {whatever} at a ChemWest meeting or one of the following IACT, ISTA, ACS, or DuPage institute day. This would be in the form of a very brief presentation of some form. We also need a letter [or video] back to show our grantors this is worthwhile.

Please return this application to: Karl Craddock at [kcraddock@d211.org](mailto:kcraddock@d211.org) or at 1000 S. Quentin Rd., Palatine, IL 60067
